SAM.GOV

Registered - verify current status

BASE

Wentzville, Missouri

SERVICE AREA

Missouri & Regional Midwest

CORE CAPABILITIES

- Regional freight and delivery using non-CDL box trucks for defined local and regional assignments.
- Dedicated routes, scheduled recurring pickups and deliveries, last-mile and final-mile support.
- Facility-to-facility and project-based freight movement with documented communication and handoffs.
- Contract coordination / teaming for larger scopes using vetted local carrier partners under disclosed roles.
- Bid, solicitation, subcontract, dispatch, documentation, invoicing, and administrative coordination support.

DIFFERENTIATORS

- Transparent operating model: direct fleet capacity is separated from partner-carrier capacity before award.
- Background in GMP-regulated pharmaceutical facility operations informs documentation discipline and escalation practices.
- Missouri-based point of accountability for regional Midwest work and contract administration.
- No unsupported claims of large-fleet scale or specialized clinical / cold-chain qualifications.

CONTRACT COORDINATION MODEL

1 QUALIFY

Define route, schedule, handling, insurance, security, documentation, and award requirements.

2 BUILD

Match the scope to direct execution or qualified carrier partners.

3 ADMINISTER

Coordinate communication, handoffs, exceptions, records, and contract obligations.

4 CLOSE

Maintain the delivery and administrative trail required by the customer and award.

SCOPE DISCLOSURE

Milusos directly operates non-CDL box-truck service for defined assignments and may use vetted carrier partners for added scale or specialization. This capability statement does not claim validated cold-chain capability, hazmat authority, clinical specimen certification, or other specialized qualifications unless documented for the awarded work. Contracting personnel should verify current SAM.gov status and solicitation-specific requirements before award.
